Website Planning & Developer Comparison

Project: QA Test - Developer Comparison

Created: 11/6/2026, 4:39:03 PM

Planning estimates supplied by the customer. Charges, inclusions and timelines must be confirmed in writing. Unknown costs are not zero.

Year 1 website costs — comparison

These are known first-year cash amounts only, based on what you entered. This is not a verified price quote and is not a four-year forecast.

Option	Known Year 1 cash cost	Status
ABC Web Studio	$3,600.00	Known entries only — verify coverage
Blue Harbor Digital	$5,100.00	Known entries only — verify coverage
Evergreen Web Solutions	$4,800.00	Known entries only — verify coverage

Developer proposals — side-by-side details

Compare the work and charges as well as Year 1 prices. Proposal clarity measures written detail, not skill. Missing answers and fees still need confirmation.

Compare	ABC Web Studio	Blue Harbor Digital	Evergreen Web Solutions
Known Year 1 cash cost	$3,600.00	$5,100.00	$4,800.00
Quoted scope	Five-page website, contact form, and hosting	Eight-page website, booking system, training	Website, hosting, security, and support
Expected completion	8 weeks	10 weeks	6 weeks
Written inclusions	Website pages, Hosting	Website pages, Updates and support	Website pages, Hosting
Itemized charges and billing	Website Development: $3,000.00 once | Monthly hosting: $50.00 monthly	Website Development: $4,200.00 once | Website maintenance: $100.00 monthly, 3 free months	Complete website package: $4,800.00 once | Hosting included in package: $600.00 yearly (included in another charge; not added)
Proposal clarity (not developer skill)	4/10	8/10	7/10
Question progress	3 of 5 questions completed; 2 awaiting response or follow-up	4 of 5 questions completed; 1 awaiting response or follow-up	4 of 5 questions completed; 1 awaiting response or follow-up

Year 1 is not the full lifetime cost. Check renewals, exclusions, account ownership, security, backups and support before committing.

Decision guide — what the information suggests

Offline guidance only: developers are not independently verified; no single winner can be determined. You choose who to hire.

- Lowest recorded first-year cash cost (among proposals without missing prices): ABC Web Studio. This does not establish the lowest total cost or best value.
- Highest documented proposal-clarity score: Blue Harbor Digital (8/10). This measures what was written, not skill or reliability.
- The quoted work differs. Ask providers to price the same requirements before comparing overall value.

Before hiring — priority checks

- ABC Web Studio: 2 open questions; written ownership/testing/support terms need review; 2 experience/reference checks outstanding. See the developer details.
- Blue Harbor Digital: 1 open question; written ownership/testing terms need review; 1 experience/reference check outstanding. See the developer details.
- Evergreen Web Solutions: 1 open question; written ownership/testing/support terms need review; 2 experience/reference checks outstanding. See the developer details.

ABC Web Studio

Contact email: Not supplied

Contact: Not provided

Expected delivery: 8 weeks

Quoted work: Five-page website, contact form, and hosting

Proposal clarity: 4/10

Written inclusions: Website pages, Hosting

Charge	Amount	Frequency	Starts after	Free months	Counted?	Duration
Website Development	$3,000.00	once	0 months	0	Yes	One-time charge
Monthly hosting	$50.00	monthly	0 months	0	Yes	Ongoing charge — end date not specified

Questions asked — progress and optional notes

3 of 5 questions completed. Question progress is separate from proposal clarity.

Question	Status	Optional notes
Which pages, features, changes, and exclusions are included?	Answered — completed	—
Who owns the domain, data, hosting, and website after you pay?	Asked — waiting for an answer	—
What are the deadlines, payments, and steps if the work is late?	Answered — completed	—
What testing will be done before final payment?	Answered — completed	—
What support, backups, training and handoff are included?	Asked — waiting for an answer	—

To ask — Who owns the website and accounts?: Who owns the domain, data, hosting, and website after you pay?

Written proposal concern — How will the work be tested?: marked missing in the proposal review, although the question is completed. Confirm the written terms or revise the proposal rating.

To ask — What help comes after launch?: What support, backups, training and handoff are included?

Developer experience & references

4 of 6 applicable checks marked satisfactory. 2 require attention or verification. This reflects customer checks, not a verified reputation score.

What was checked	Verification status	Optional notes
Similar completed projects	Checked — satisfactory	—
Portfolio work and developer role	Requested / waiting	—
Previous customer references	Checked — satisfactory	—
Independent reputation or reviews	Checked — satisfactory	—
Relevant technical, security and accessibility experience	Could not verify	—
Past ownership and handoff experience	Checked — satisfactory	—

Before hiring: ask for relevant work samples and references, verify ownership and handoff terms, and request security/accessibility testing details when applicable. Missing evidence is not proof of poor work.
